Bird watching:

To do bird watching, you will depart early in the morning from the hotel or another place where it is defined for this activity, you will take land tours until you reach the places whose transport is carried out by the client. Due to the characteristics of the product, once in the bird watching area tourists will be organized into two groups of 10 people each accompanied by a specialized guide for each group.

Tours last an estimated 3-5 hours, returning to the initial starting point (hotel or other accommodation sites), or to the places where lunches and dinners are planned. As agreed with the agency, a snack or lunch will be offered in the Reserve areas assigned for such purpose. There are currently 8 trails for this purpose:

- Salinas Trail
- Hatiguanico River Trail
- Santo Tomás Trail
- Arroyones Trail
- San Lázaro - Guamutales Trail
- Peralta Trail - Canal de los Patos
- Natural Element Highlighted Zale's Speleolacustre System
- Bermejas Wildlife Refuge

The carrying capacity or assimilation of daily customers of the product in the territory given its extension is 6 groups of up to 15 pax, the internal accesses to the starting points of the trails are in good condition and there is a service of local guides specialized with great experience and language level. The degree of difficulty is low given that the trails are flat and you should wear comfortable clothes, light shoes, sunscreen and mosquito repellent.

No special qualification or certification is required to exercise the activity, only the guides know the territory and the birds to observe.
