

The Ciénaga de Zapata Conservation Company, an entity whose functions are closely linked to the protection and sustainable use of forest resources in this southern Matanzas territory, has a patrimony of 491 325 hectares, of which 363,489 hectares (74%) hold the categories of protective and conservation forest. It extends throughout the south of the province of Matanzas, delimited to the north by the National Highway. It covers areas of the municipalities of Unión de Reyes, Jagüey Grande and Calimete and the entire territory of the Ciénaga de Zapata municipality, where its Central Office is located.

Its antecedents go back to the revolutionary triumph, which marked the beginning of a vast plan of afforestation of this area where until that date only exploitation actions were carried out. Since then it has been present with various denominations in the management of forest and wildlife resources in the area.

In November 2011, the implantation of the Business Management and Direction System was approved, through Resolution of the Ministry of Economy and Planning and on December 30, 2015, its integration into the Flora and Fauna Business Group was authorized.

From a territorial point of view, the Company is divided into five Silvicultural Base Business Units (Unión de Reyes, Jagüey Grande, Calimete, Ciénaga Occidental and Ciénaga Oriental) and a Business Unit of Silvicultural Conservation Base.

In addition to the aforementioned units, the Company has two other UEBs: Insurance and Comprehensive Technical Services.
