ATTENTION TO THE POPULATION

In the work system program we have planned the attention to the population every Friday by the Director.

We have a local with the conditions required to care for the population, by the Specialist to Amarilis Domínguez Taño Telephone 915504

FLORISTERIA

The population is served in the Florist, and Cemeteries.

NECRONOLOGICAL SERVICES

In relation to the Cemeteries, their operation is governed by the provisions of the established rules, regulations and models. In our municipality we do not have a funeral home. The vigils are held in the homes and is governed by what is established.

The population is served with the procedures of repair and construction services in cemeteries.

COMMUNAL HYGIENE

Solid waste collection system:

The Sanitation of the municipality we have 6 Communal Zones with daytime collected collection. Mounted on Animal traction.

DUMP

We are working permanently on the covering and sanitation of solid waste. The main problems we face are the perimeter fences, the booths, it is presented in the economy plan and so far we have not been approved.

GREEN AREAS

This Department's mission is to control the Green Areas that are expedited by the communal areas, as well as the pruning of the trees
